OUR STORY

MORE THAN A RUG COMPANY A FAMILY OF CRAFTSPEOPLE

With more than 25 years of experience, Naman Rugs & Carpets brings together traditional craftsmanship and modern design. Based in Bhadohi, India — the world's carpet-weaving capital — we create handmade rugs for homes, hotels, designers, and commercial spaces.

Behind every carpet is a person — a weaver, a dyer, a finisher — who gives it character. We believe a rug should be made with care, not just manufactured, so that it lasts for generations.

25+

YEARS OF CRAFT

100%

HANDMADE

Bhadohi, INDIA

Where generations of carpet makers turn yarn into something people can live with, love and keep.

A RUG TAKES TIME. THAT IS PART OF ITS BEAUTY.

A handmade carpet takes time, skill, and patience. Our process combines traditional craftsmanship with careful quality checks at every stage.

**Design & Planning → Yarn Selection → Weaving/Knotting →
Trimming → Washing → Finishing → Quality Check → Packing**

Every step is carefully completed to ensure the right colour, texture, size, and finish.

OUR COLLECTIONS

CRAFTED FOR EVERY SPACE

From bold geometrics to soft, textured naturals — every rug is designed to bring warmth and character to the spaces people live in.

Modern Geometric

Bold pattern, hand-loomed texture

Sculpted Naturals

Organic shapes, tonal fibers

Soft Ombre

Gentle gradients for calm interiors

HAND LOOM

Made slowly. Made by hand. Made to last.

Hand woven rugs are created by weaving yarns together on a traditional loom. They have a natural texture and handcrafted appearance, making them suitable for both modern and traditional interiors.

Natural texture • relaxed character

HAND TUFTED

Made slowly. Made by hand. Made to last.

Hand tufted rugs are made by inserting yarn into a fabric backing using a hand-operated tufting tool. This technique gives us the freedom to create different designs, shapes, colours, and textures.

Design freedom • shapes & textures

HAND WOVEN

Made slowly. Made by hand. Made to last.

Hand woven rugs are created by weaving yarns together on a traditional loom. They have a natural texture and handcrafted appearance, making them suitable for both modern and traditional interiors.

Simple construction • versatile feel

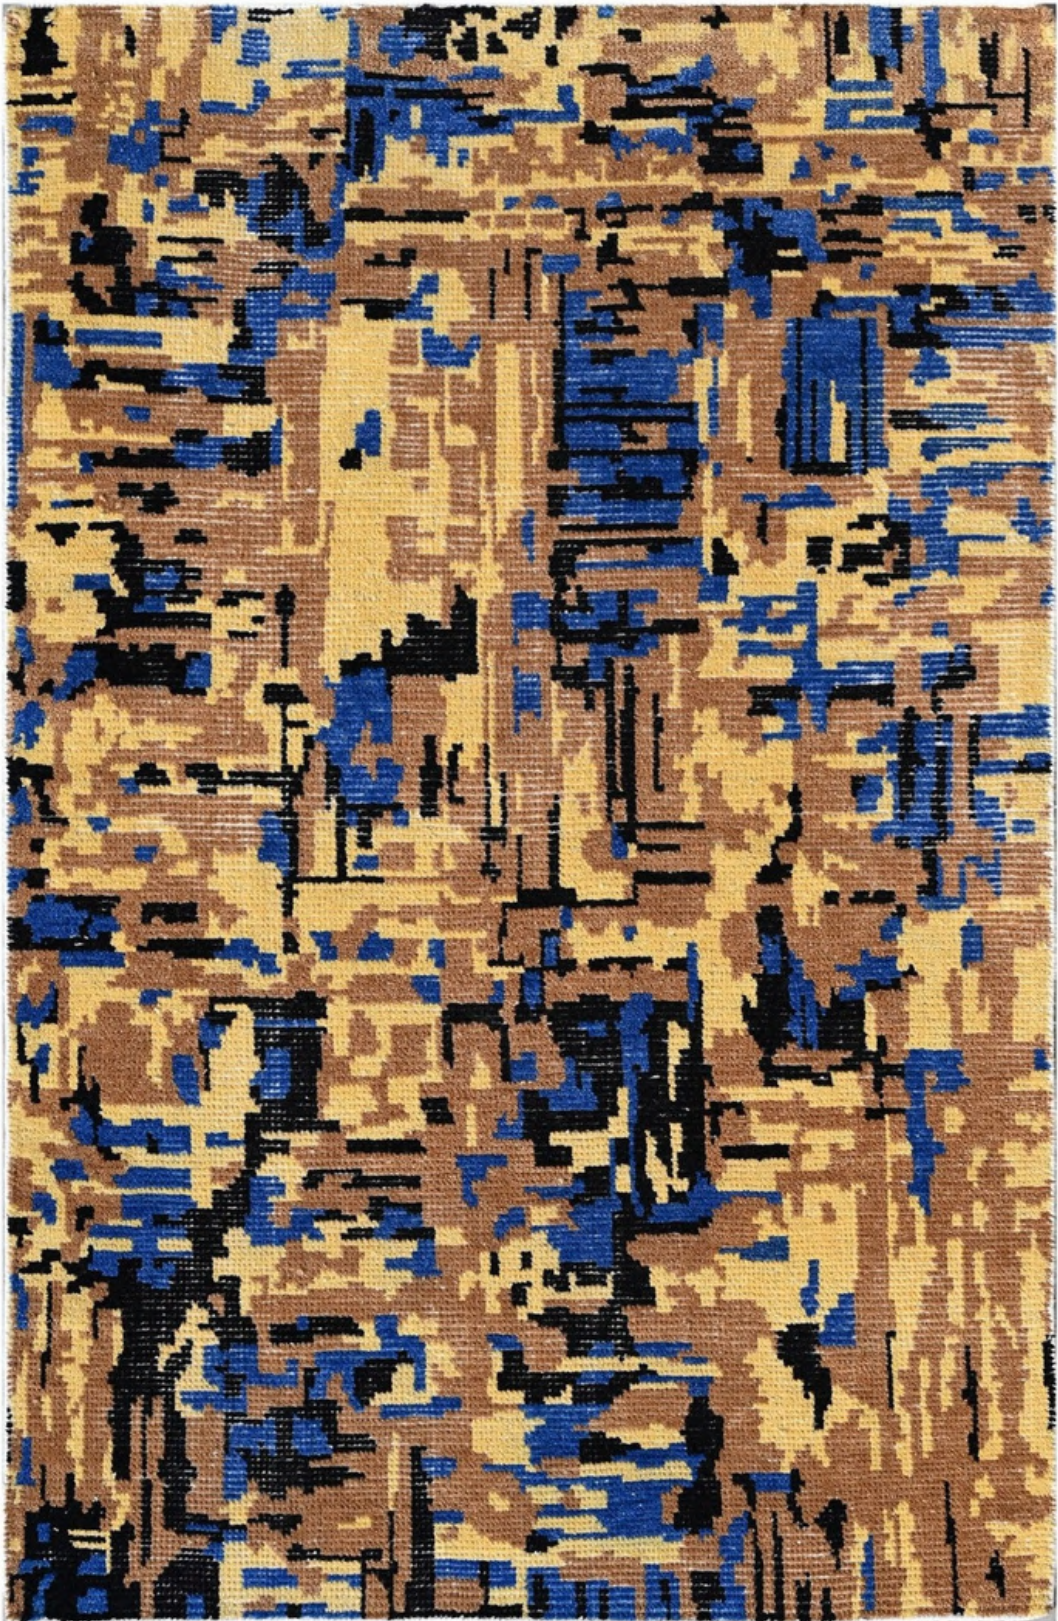

HAND KNOTTED

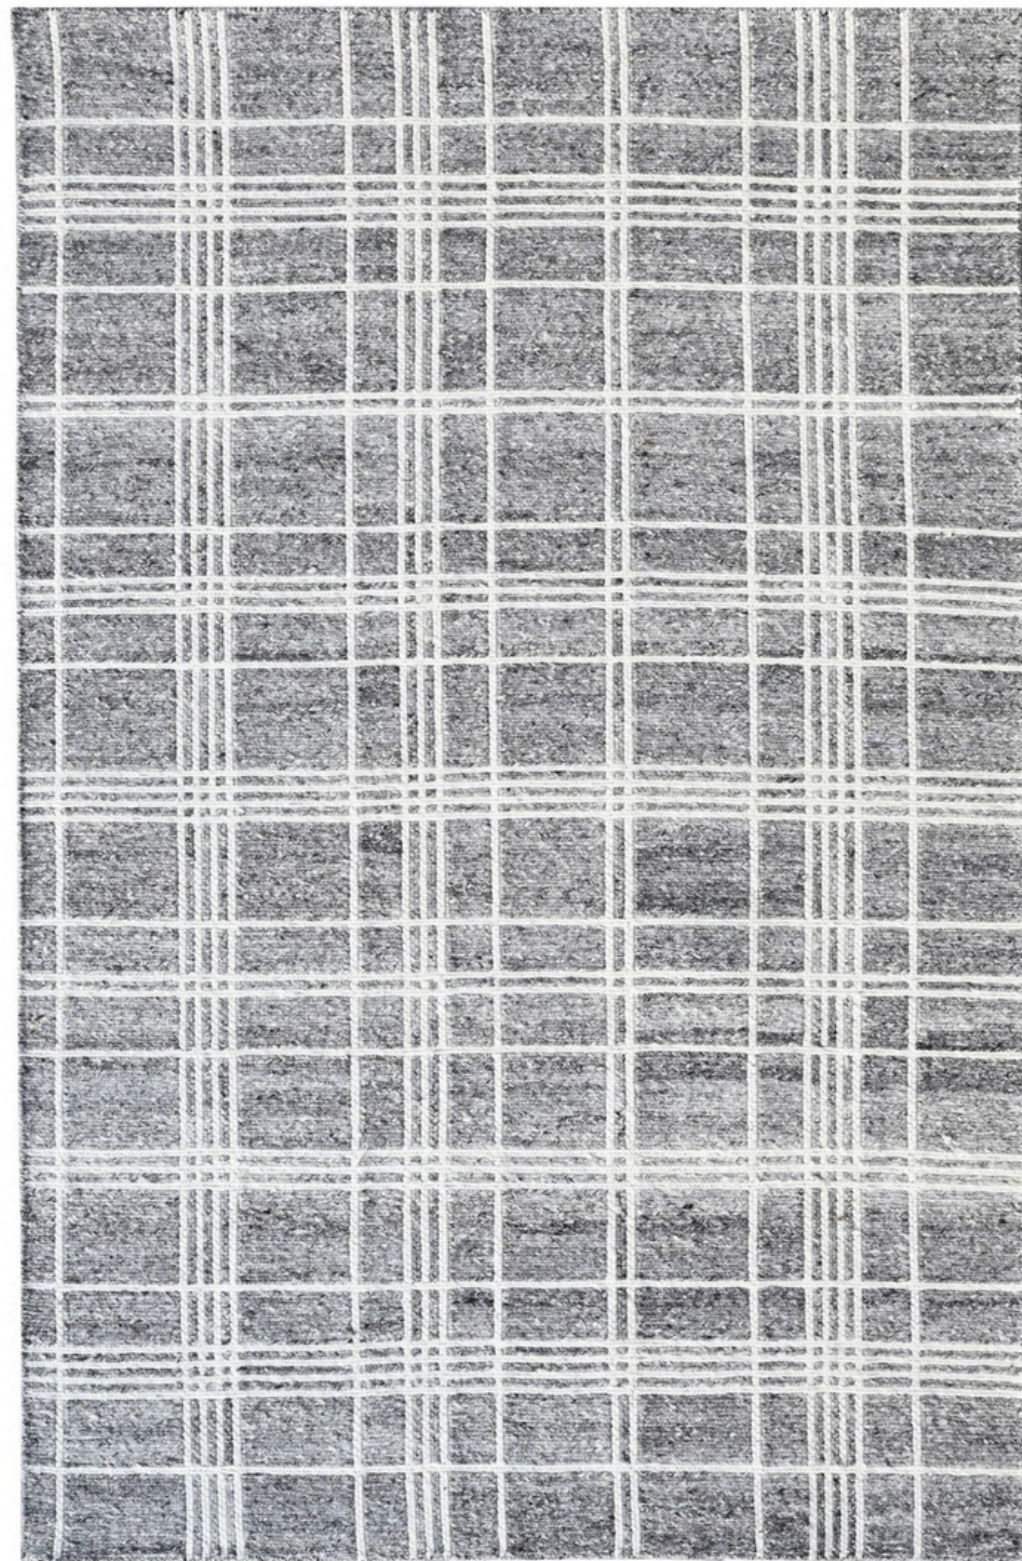

Made slowly. Made by hand. Made to last.

Hand knotted rugs are made by tying individual knots by hand. It is a detailed and time-consuming process that creates beautiful patterns, rich textures, and durable carpets. Each rug has a unique handmade character.

Individual knots • lasting character

NAMAN RUGS & CARPETS

Your Floor's Forever Companion
